

Toni Badone

Yuma, AZ

At Yuma Union High School District our clear bottom line is for EVERY student to graduate ready for success in college AND career. It is only possible to achieve that if our students have access and success as 21st Century learners using the latest applications of technology. Our state funding and our national e-rate provisions are not keeping up with needs or our constituents' expectations! Yet we are 75% complete with a one to one initiative! We need e-rate to be expanded and to support our schools in their digital needs and goals. Please pay attention to the ISTE articulated improvements for e-rate so that we can insure our students access and achievement!
